

Brief Product Descriptions

Access Video On Demand offers an expansive collection of thousands of high-quality videos that complement and enhance your library's content offerings. We bring exceptional content from around the world that they may never have had the opportunity to see: from Oscar®, Emmy®, and Peabody Award-winning documentaries, to how-to programs that make life easier and richer, top-quality performances spanning the arts, biographies of history-makers past and present, a variety of TV shows and movies, and more.

Just for Kids Streaming Collection gives children—and their parents—a thoroughly kid-safe, advertisement-free media platform they can freely explore and enjoy. Just for Kids has the educational videos children want to watch—Sesame Street, The Electric Company, The Wubbulous World of Dr. Seuss, The Berenstain Bears, Franklin, and thousands more—plus songs, games, and other interactives that are sure to entertain, educate, and inspire young patrons. Plus, the collection is ideal for librarians hosting a video storytelling hour, activities for preschoolers and early learners, an after-school or ESL/ELL program, homework help for students, or resources for homeschoolers that they can access anywhere, anytime.

Ferguson's Career Guidance Center is a comprehensive resource for career exploration and planning that allows users to quickly find the valuable career information they need, whether it's industry and professions articles, school planning resources, or skills and career advice. Working in partnership with [Indeed.com](https://www.indeed.com), we have [Live Links](#) to Outside Jobs and Internships.

Health Reference Center is an essential resource that serves both the reference and practical needs of your patrons, including comprehensive, in-depth coverage of body systems, current health issues, major diseases and conditions, treatments, and procedures, as well as health and nutrition information specific to men, women, children, teens, and seniors. This important resource also helps improve decision-making skills, addresses social pressures and influences, and provides functional health knowledge that encourages users to practice healthy behaviors.

World News Digest — For more than 75 years, World News Digest has been a go-to resource for context and background on key issues and events in the news, presenting more than eight decades of authoritative news summaries and background articles. World News Digest also offers an editorial newsfeed featuring current newspaper editorials, many from international sources, via NewsEdge. These thought-provoking new editorials will keep users on top of trending topics, offering broad context and perspective to current and recent news events—and complementing the historical editorials already in the database.

Science Online

Science Online offers a comprehensive overview of a broad range of scientific disciplines, with a wealth of content and a dynamic design that facilitates STEM research and learning. The Topic Centers feature specially selected content on core science disciplines to help students find a starting point for their research.

Today's Science bridges the gap between the science taught in class and real-world discoveries—giving in-depth explanations of important advances in biology, chemistry, environmental science, space, physics, and technology. An extensive backfile dating back to 1992 illustrates how one scientific advance leads to another. This essential STEM resource shows how the scientific method can be applied to everyday life, helping students think like scientists—applied science in a nutshell.

The World Almanac for Kids

The World Almanac® for Kids is the ideal one-stop reference resource for intermediate-level students. Convenient new search filters make it even easier for students and teachers to find the content they need most. The World Almanac® for Kids includes content from award-winning The World Almanac®, Chelsea House, and Facts On File sets and series. Each topic area provides resources for homework, reports, and projects, and kids can explore age-appropriate subjects while developing online research skills with a trusted content source.
